computer and internet user guidelines for students

PYP/LGRP

2018-2019

EMBRACE DIVERSITY, EXPLORE THE WORLD!

ISGR/IHGR Vision

Our Vision for ISGR/IHGR is to be a leading international educator with a community of passionate lifelong learners, inspiring global citizens to embrace diversity and explore the world

Computer and internet user guidelines – 2018/2019

As a student, I agree to the following regarding using the computers and the Internet:

1. I will use the computers and Internet for school and research.
2. I will not use the Internet for any illegal activity, such as violating a copyright or other contract or gaining illegal access or entry to other computers (hacking).
3. I will not use the Internet in a way that will disrupt its use by others.
4. I will not use an account owned by another person or use that person's password to gain access in any way.
5. I will not reveal my personal password, address, phone number, or the same information of a friend or fellow student to anyone on the Internet.
6. I will not commit acts of vandalism to the computer, hardware peripherals, or programs. I will not do any damage to other people's files or access those files.
7. I will not use the Internet or the computer for rude, vulgar or inappropriate behavior.
8. I will not harass, annoy or attack others on the Internet.
9. I will not download files, software or shareware unless my teacher requests me to do so.
10. I will not use Internet time for playing computer games.

I understand that the school officials have full authority to decide what is appropriate Internet and computer use. My teacher has discussed each of the above points with me, and I understand that if I violate this agreement my access privileges will be lost and school disciplinary action may be taken.
